

Safe cycle route from central Thakeham to Storrington

Route description (from Abingworth)

1. Go down High Bar lane and continue going straight ahead.
2. At the end turn left and go almost back on yourself down Threals Lane.
3. Follow the lane to a bridleway which rises over a ridge and comes out on Greenhurst Lane.
4. **Carefully** cross the road and go straight ahead down Northlands Lane.
5. Here you can walk straight ahead on the signed footpath joining Downsvie Avenue and into Storrington.
6. To cycle, turn left at the end of Northlands Lane along Water Lane to the new traffic lights where you turn right to go into Storrington on the main road. (There are a couple of short-cuts via Sullington Copse as shown above, but the distance saved is very modest.)

Thakeham PC hopes, eventually, to improve this route with a cycle connection following the more direct walking route, using Downsvie Avenue, but that is subject to legal and financial opportunities aligning.
